

Leverage Research Expertise

The Expert Gallery Suite is designed to showcase your research expertise and enhance the reputation of your health care system. Increased research visibility shows patients, medical talent, and funding bodies what sets your health network apart.

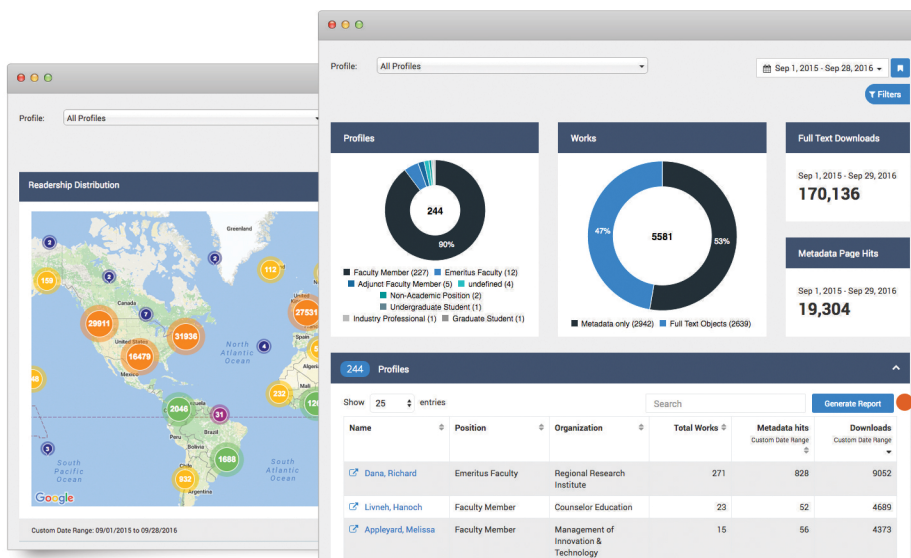

- Connect researchers and care providers to the right opportunities
- Track (and report on) research output and impact
- Reduce strain on IT: fully hosted and supported

Choose which researchers and providers best represent the health care network to patients, media, and industry partners

Researcher profiles show the full breadth of an expert's achievements, from book contributions and lecture videos to published articles and awards

Reporting tools for authors and administration offer detailed, exportable analytics—including how specific institutions and companies are accessing research
